

FIG. 1

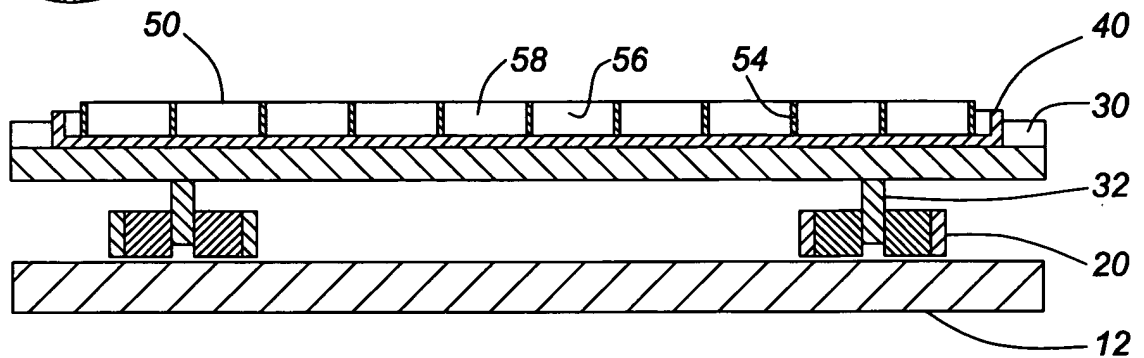

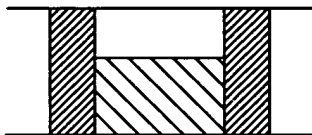

FIG. 10 shows two cross-sectional views of a substrate with a patterned layer. The left view shows a layer 52 with openings 56 and a bottom layer 58. The right view shows a layer 52 with openings 54 and a bottom layer 58.

FIG. 4

A diagram showing a ball (represented by a circle with diagonal hatching) positioned between two vertical bars (also with diagonal hatching). The bars are connected at the top by a horizontal line, forming a U-shaped structure. The ball is touching the bottom of both bars.
